**1 Presentation of Symptoms & Diagnosis**
(Objective/Purpose)

- The CDM is located in a small rural community in southern Nash County with limited access to health care providers.
- Most Nash County health care providers work in the northern section near Rocky Mount.
- Anecdotal experience with museum visitors who express difficulty in seeking medical care and appear unaware of lifestyle choices that can affect their health.
- Demographics: above average unemployment rates, high underserved populations including a large African American community: 39% in Nash County and 61% in Wilson County.

**2 Treatment Plan**
(Methods)

- Although an unlikely partner in the health of the community, the museum seeks to help its audience become more informed about health challenges.
- Develop an approach to improve access to care and education for underserved minorities.
- Partner with mobile health groups to bring services to the community.
- Use resources of the museum, including ample parking lot, reception area, marketing and publicity experience, and administrative capabilities for scheduling and registration.

**3 Therapeutics**
(Participant Experience/Results)

- The NC Baptist Men Dental Bus Ministry provides oral care for underserved community members outside of traditional medical settings.
- This program offers dental cleaning, fillings, and extractions to underserved community members.
- Participants who can not otherwise afford dental care are able to seek assistance.
- With the help of volunteers, local dentists, and extractions to underserved community members.
- Participants who can not otherwise afford dental care are able to seek assistance.
- With the help of volunteers, local dentists, and extractions to underserved community members.
- Participants who can not otherwise afford dental care are able to seek assistance.
- With the help of volunteers, local dentists, and extractions to underserved community members.

**4 Prognosis & Continuing Care**
(Conclusion)

- Repeat visits allow participants to start implementing healthy behaviors & to regularly screen for diseases.
- Participants expressed appreciation for services, especially as many of the members of the community had not had recommended screenings in the past.
- Expand health visits with complementary services (Lions Vision Van with Nash County Health Department).
- Partner with other community groups (such as the Optimist Club or local church) to help secure volunteers, funding or other needed functions.
- Program allows the museum to become a health resource in the community.

**By the Numbers**

- 1 family practice physician in town
- 20 miles to the closest hospital
- 60% Town of Bailey population
- 26% of area residents live below the poverty level
