"Our collaboration with the systematic review service provided information critical to the Food and Drug Administration’s regulation of vaping (or e-cigarette) retailers. Our systematic review, which is published in Tobacco Control, was only possible with the expertise and collaboration of a Laupus librarian. This service is indispensable given the ever growing volume of scientific literature and the need to leverage high-quality scientific evidence to improve the health of the public."

-Dr. Joseph G. Lee, assistant professor
Department of Health Education & Promotion
College of Health & Human Performance
