

Art as Avocation Series
Artist's Registration Form

Laupus Library launched the opening of the Art as Avocation series in January of 2012 to showcase and celebrate through a gallery exhibit, the artistic talents and self expression of faculty and staff from the Division of Health Sciences. The success of this first exhibit confirmed our belief that our faculty and staff have many artistic talents waiting to be shared. In order to continue this exciting series we would like to extend an opportunity for you to exhibit and assist us in planning future exhibits. Those interested in becoming an exhibitor are invited to submit the artist's registration form for exhibit consideration. For more information about the series or previous exhibits please visit: www.ecu.edu/cs-dhs/laupuslibrary/events/artasavocation/index.cfm
